## THE OFFICES

---

# FAST AND FLEXIBLE

Offices where our customers are.  
Production where it is made best.

Management is decentralised. The person who takes the brief sits in your time zone, and the person who builds it sits on the floor.

ENVIRONMENTAL POLICY

# RENEWABLE AT THE SOURCE

The operating record across the partner base. The team's record, not an LCA figure.

# WHAT SITS BEHIND THE LINE

---

## Design studio

Development, CAD, tech packs and 3D, sitting with the base that will build the style.

## Compliance

Audit readiness, social and environmental standards, and the evidence pack behind every claim.

## Merchandising

Calendar, costing and critical path, run against a landed number you can hold us to.

## Quality

Written standards, in-line checks and final inspection against the approved sample.

BANGLADESH

---

## THREE FACILITIES, WOVEN AND KNIT

Woven bottoms, underwear, casual and performance, swim and athleisure.

100% export operations with the compliance record that global programmes require.

TECHNICAL ORIGINS

# ONE PLATFORM, TWO PRODUCTION CHOICES

**Sri Lanka.** Seam-sealed and functional outdoor construction, and the technical finishing that goes with it.

**Myanmar.** Functional outdoor and workwear, inside the same footprint and to the same standard.

Route the programme to the origin that wins it.

CHINA

## TWO FACILITIES, ONE SOURCING AFFILIATE

Fabrics and manufacturing depth in Zhejiang and Guangdong, with a sourcing affiliate alongside.

Stated as two plus one, so nobody reads it as three factories.

NORTH AMERICA AND THE GULF

## WHERE OUR CUSTOMERS ARE

Montreal, New York, Atlanta and Toronto in North America.

The people who cost your programme have stood on the line that sews it.

# WHICH ORIGIN WINS THE STYLE

The alternate is not a fallback. It is where the same style is placed when the calendar, the duty line or the capacity says so.
